

CofNix

Powerful Activator for Respiratory Efficiency

COFNIX is a combination of time tested modern ingredients to combat all the symptoms associated with respiratory tract infections.

Antihistamines possess some degree of antitussive action particularly when cough is associated with histamine release. Diphenhydramine HCl with bronchodilators is effective as anti cough agent. Ammonium chloride is a saline expectorant, which increases airway mucus secretion and helps to dilute the irritant for better pulmonary drainage. Hence mucolytics and mucokinetics play an important role in treating respiratory allergy/infection.

COMPOSITION:

Active ingredients	Each 100 ml contains
Diphenhydramine Hcl I.P.	160 mg
Bromohexine Hcl I.P.	80 mg
Ammonium Chloride I.P.	2000 mg
Sodium Citrate I.P.	1000 mg
Colour Ponceau	4R

UNIQUE FEATURES:

Prevent respiratory complication.

Supporting treatment for ND, IB, CRD or Mycoplasma and other respiratory diseases.

**Clears the congestion, Opens the pathways
Mucolytic and Mucokinetic Expectorant**

DIRECTION FOR USE:

1 ml/Liter of water for 3-5 days
or as directed by the Veterinarian.

Packing: 100 ml & 500 ml HDPE bottle
